10. Other: \_\_\_\_

Continuation of 2. NOTE: Applicant has amended independent claims 1, 50, and 59 to include new limitations as claim 1 now recites that, "main body defines an opening," while claim 50 newly recites that the "opening is defined by a main body having a distal end coaxially palced about the most distal end of said transducer," and claim 59 newly recites some functional language as to the propagation path.
